

## Education

B.E. Electrical Engineering with Minor in Computer Science

GPA = 3.90 Honors = Dean's List, Pinnacle Scholar

Coursework: Algorithms, Data Structures, Discrete Structures, Multivariable Calculus, Differential Equations, Complex Variables, Microprocessor Systems, Electronic Circuits

## Summary Statement

Motivated Undergraduate with Python, Java, JavaScript Seeking a Software Developer Internship for Summer 2020

## Soft Skills

Communication, Management, Curiosity

## Technical Skills

Python, Java, C++, Ubuntu

## Work Experience

Research Assistant

## Projects

WAMV

Hackathon

# My first lex page1

Asif Uddin

October 23, 2019

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.
